barcode**

**Twistseal
data matrix**

Sealing wires: All models

Plastic coated stainless steel wire

Stainless steel wire

Galvanized sealing wire

Nylon-copper sealing wire

Copper sealing wire

Grass sealing wire

**TWIST SEAL is a wire seal, completely made by LeghornGroup.
Available also RFID version.**

Specifications:

- **Easy application.**
- **Visual inspection of the seal closure** thanks to its sturdy and transparent polycarbonate body.
- **Hardly to be tampered with:** once it is closed it is impossible to tamper with; the sealing wire used for the closure has no chance of being removed and any attempt to tamper will be obvious.

Main applications:

- Suitable to be used to seal **water, gas and electricity meters.**
- Frequently used in the **refinery and oil distribution/transport** sector.

How to use it

Once the sealing wire is inserted in the appropriate...

...holes, by turning the handle of the seal for 360° the seal will be closed and we suggest to snap off the handle for higher security

To remove the Twistseal, break the wire with a nipper.
