Mechanical security seals and security bags

India

Field of action

LeghornGroup's main aim is to operate efficiently, lucratively and responsibly in the security and anti tampering sector.

LeghornGroup's desire to be a focus point within this sector is supported by its strong commitment to manufacture and develop innovative and highly effective solutions.

Protection. We can protect your goods and assets with security seals and various products for tamper protection. The company can create bespoke, technical solutions to meet client's requirements.

Control. We ensure goods and people can be monitored using security products and integrated complete hardware and software solutions that allow the operator to monitor and intervene in real time, even remotely.

Identification. LeghornGroup's understanding of authentication along with their innovative technical products and solutions allow users to uniquely and securely identify, goods, vehicles, containers, animals and people.
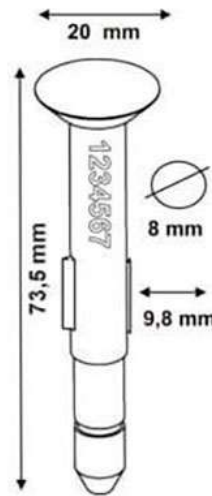

Tracking. LeghornGroup's real time GPS tracking devices allow users to monitor location, status and movements of vehicles and people.

RFID Solutions. LeghornGroup also manufactures solutions for product authenticity; automatic identification systems using RFID to aid traceability of objects, animals and people, offering new and efficient operations to speed up the supply chain;

Flat tie for closing plastic bags

Specifications

- Flat ties are simple, efficient tools for sealing plastic bags.
- Flexible strips made from plastic or metal/plastic composites.
- Can be pre-cut or on spools
- Various lengths and colors available
- Ideal for various industries due to ease of use and customization.
- They offer a balance of security, convenience, and reusability.

Usage Process

- Fill the plastic bag
- Twist the top of the bag
- Wrap the flat tie around the twisted section
- Fold or press ends to secure

Use Cases

Food Industry: Bread bags, produce, frozen items
Medical Supplies: Temporary closures for sterile packaging
Retail: Dry goods, DIY kits
Household Use: Trash bags, storage bags

Flat tie for agriculture

Flat ties are flexible, flat strips made typically from plastic or composite materials, used in agriculture to secure, bundle, or train plants and agricultural materials. These ties are ideal for delicate crops, vines, stems, and various support systems.

Specifications

- Usually polyethylene or polypropylene, ensuring durability in outdoor environments.
- Metal core for higher strenght
- Shape: Flat and wide surface area prevents cutting into stems or bark
- Available in various lengths and widths to suit different plant sizes and trellising needs
- Often green or brown for camouflage, but other colors are used for coding or visibility

Common Agricultural Uses

Plant Training: Supporting and guiding the growth of vines (e.g. tomatoes, grapes, cucumbers).
Tree Ties: Securing young trees to stakes during early growth stages.
Crop Bundling: Holding harvested crops (e.g. flowers, herbs) together for transport or sale.
Greenhouse Applications: Securing plastic films or shade cloths, organizing irrigation lines.
Vineyard and Orchard Management: Gentle yet firm binding without damaging bark or branches.

Bologna pallet cover

Specifications

- Material: nylon
- Size: 130x160x 90 cm
- Four metallic ring at the end of the cover to be secured with security seals

- Customisation available upon request
- Waterproof option available upon request
- Transprent window for packing list available upon request

- Available colors:

By LeghornGroup

Specifications and design are subject to change without any notice or obligation from the manufacturer

Correct application

Place the pallet cover on the pallet to be covered and slide it along the four sides.

Pull tightly to cover the entire pallet and choose the corner of the pallet you want to seal

Place the seal behind the pallet tab and insert it into the two holes on the pallet cover. Then tighten very tight

Mail bags: non-woven material

Mail Bags are protective packaging used for shipping documents, parcels, and goods.

A Non-Woven Material is Fabric-like material made from long fibers bonded together chemically, mechanically, or thermally.
Not woven material is often made from polypropylene (PP).
They are an environmentally responsible options are available without compromising performance.

Applications

- E-commerce Shipping
- Postal Services
- Retail and Clothing Delivery
- Healthcare Samples or Documentation
- Corporate Document Distribution

Types of Non-Woven Mail Bags

- **Flat Mailer Bags:** Envelope-style, often used for documents.
- **Courier Bags with Flap:** Includes a peel-and-seal adhesive flap.
- **Gusseted Mail Bags:** Expandable base or sides for bulkier items.
- **Security Mail Bags:** With tamper-evident features or zipper closures.

Each of our bags is fully customizable in terms of **size, color, closure system, and branding**.
Whether you need a standard solution or a tailor-made product, we ensure the highest levels of quality and security.
LeghornGroup mail bags can be sealed using an adjustable plastic seal.

LeghornGroup
1978

Mail bags: Strong nylon material

Nylon mail Bags are Heavy-duty mailing bags made from high-strength woven nylon fabric. They are designed for repeated use, secure transport, and high-performance mailing. **Nylon mail bags** are ideal for **secure, repeated transport** of documents and valuables.

They combine **durability, security, and efficiency** in high-demand mailing environments. Widely used in **banking, logistics, e-commerce, and institutional operations**.

Benefits

- **Strong & Durable:** Excellent resistance to tearing, punctures, and abrasion.
- **Water-Resistant:** Protects contents from rain and moisture.
- **Reusable:** Designed for long-term use in postal and courier systems.
- **Secure:** Often used with zippers, lockable chambers, or tamper-evident seals.

Applications

- Postal Services
- Banking and Finance (cash transport)
- Legal and Government Documents
- Medical and Pharmaceutical Deliveries
- E-commerce Return Logistics

Customization Options

- Sizes and shapes
- Color coding by department or route
- Printed logos, barcodes, or QR codes
- Internal compartments or foam inserts

Each of our bags is fully customizable in terms of **size, material, color, closure system, and branding**. Whether you need a standard solution or a tailor-made product, we ensure the highest levels of quality and security.

LeghornGroup mail bags can be sealed using an adjustable plastic seal.

LeghornGroup security bags

We specialize in the production of **security bags** that combine **innovative security features** with practical design, ensuring that any unauthorized attempt to open the bag is immediately visible, helping to prevent fraud and loss.

We offer a complete range of security bags designed for the safe transport and storage of cash, documents, valuables, and sensitive items. Below is an overview of our main product categories:

Security bags	
Cash Security Bags	Designed for transporting banknotes and coins securely. Available in reusable both with and without handles. Tamper-evident closures with ZIPSTOP with progressive numbers. Heavy-duty materials for durability
